

The Ministry

The ministry of CWE has been established to serve and better enable local churches to fulfill the Great Commission mandate with assistance to missionaries and national pastors on the foreign fields, all of whom - churches, missionaries, and nationals alike - are in agreement with and will defend our doctrinal Statement of Faith. It is our desire at CWE to boldly share His gift of eternal salvation through effective and passionate evangelism, and positively impact lives through:
1) the construction of facilities to accommodate the preaching and teaching of God's Word, thereby eliminating the years of planning and construction encountered by missionaries and national pastors whose time is better spent ministering to the people; and
2) the compassionate love and care of Christ facilitated by medical and agricultural missions providing for people in need of physical and spiritual healing.

The Mission

To assist the local church in fulfilling the Great Commission by providing and facilitating spiritually effective mission opportunities throughout the world.

The Vision

To see "Lives Transformed for the Gospel's Sake" in all the world through construction, medical, and agricultural missions.

The Foundation

CWE was formed in October of 1991 through the efforts of lay workers – men and women, skilled and unskilled. The ministry of CWE has been established to serve and better enable local churches to fulfill the Great Commission mandate.

All Board members and volunteers donate their time and resources. They receive no monetary compensation for their efforts. Projects are paid for by tax deductible donations. Each volunteer pays their own way.

What Can You Do?

PRAY faithfully for the successful planning and execution of CWE mission trips.

VOLUNTEER one week of your own time to be a part of a construction or medical team.

PROVIDE tax deductible funds needed to purchase and transport supplies, as well as defray the cost of volunteers who may be willing to go, but are unable to finance the trip.
